NOTE for Line Item 525-61: At anchorage within 12 nautical miles of El Suez. Vessels carrying ammunition not allowed in port area. Outer harbor deliveries are subject to barge availability and weather conditions. Subject to product availability. Government shall issue a WRITTEN order to the Contractor at least 3 calendar days prior to the required delivery date. When fuel does not meet the minimum required flash point of 60° C, the Contractor shall promptly notify the requesting vessel as soon as possible, but at least 24 hours prior to the scheduled delivery date and time. Upon said notification that the fuel does not meet the minimum required flash point, the vessel shall obtain fuel meeting acceptable fuel specifications from 1) another DESC bunker contract within the strategic operating area or 2) through open market purchase outside Egypt, as applicable. The Contractor shall also provide a copy of the current test analysis to the DESC Contracting Officer confirming adequate flash point specifications within this time period. Along with the test analysis, the Contractor shall provide the DESC Contracting Officer with a copy of the delivery order. Upon receipt of evidence that the fuel does not meet the flash point, the DESC Contracting Officer shall terminate the order for the convenience of the Government at no cost to either party. If the test results reveal that the fuel failed to meet additional specification requirements under Clause C16.23-2, then the Government reserves the right to terminate the order for cause and assess excess procurement costs against the contractor. Patriot allows unlimited free time for barge deliveries.

NOTE for Line Item 525-62: At anchorage within 12 nautical miles of El Suez. Vessels carrying ammunition not allowed in port area. Outer harbor deliveries are subject to barge availability and weather conditions. Subject to product availability.

NOTE for Line Item 526-61: At anchorage within 12 nautical miles of Port Said. Vessels carrying ammunition not allowed in port area. NOTE for Line Item 554-61: At Santo Stephano site in Sardinia, daylight pumping only to commence at first light. Minimum pump rate is 158.57 MT with maximum pump rate of 317.15 MT per hour. Ocean Energy allows no additional free time and thereafter its detention rate will be the commercial rate in effect at time of delivery.

NOTE for Line Item 555-61: Hours for receipt of orders 24 hours; hours for delivery 0900-1730 Mon-Fri. Written orders must be issued to the Contractor within 24 hours of the verbal order. Under no circumstances should vessels depart before providing a written order to the contractor. Pump rate is 59 - 251 MT per hour. Emergency number is 011-396-5995-2604. No deliveries on weekends and holidays except for emergencies. Exxon allows six hours of additional free time; thereafter, a flat detention rate applies as follows: up to 300MT - \$545 per day; 301 - 600 MT -\$970 per day; 601 - 1,000MT - \$1,200 per day; 1,001 - 1,500 MT \$1,515 per day; over 1,500 MT \$2,000 per day. In addition, all deliveries outside normal delivery hours are considered overtime. Overtime charges are flat fees as follows: up to 250 MT - \$490; 251-500 MT \$365 per hour; over 500 MT - \$730.

NOTE for Line Item 555-63: Hours for receipt of orders 0800-1700 Mon - Fri. After hours numbers are 011-44-370-461-193 and 011-44-370-532-904.

NOTE for Line Item 556-61: Hours for receipt of orders 0800-1700 Mon - Fri. After hours numbers are 011-44-370-461-193 and 011-44-370-532-904.

NOTE for Line Item 556-62: Hours for receipt of orders 0800-1700 Mon - Fri. After hours numbers are 011-44-370-461-193 and 011-44-370-532-904.

NOTE for Line Item 556-63: Alternate ordering numbers are 011-44-374-821446 and 011-44-973-65614. Tramp Oil allows one hour of additional free time thereafter, a detention rate as incurred by the supplier will be applied.

NOTE for Line Item 559-61: Hours for receipt of orders 24 hours; hours for delivery 0900-1730 Mon-Fri. Written orders must be received by the Contractor within 24 hours of the verbal being issued. Under no circumstances should vessels depart before providing a written order to the contractor. Quantities ordered must be taken, as full product cannot be returned to the refinery at this location. No deliveries on weekends and holidays except for emergencies. Exxon allows six hours of additional free time; thereafter, a flat detention rate applies as follows: up to 300MT - \$545 per day; 301 - 600 MT -\$970 per day; 601 - 1,000 MT - \$1,200 per day; 1,001 - 1,500 MT \$1,515 per day; over 1,500 MT \$2,000 per day. In addition, all deliveries outside normal delivery hours are considered overtime. Overtime charges are flat fees as follows: up to 250 MT - \$490; 251-500 MT \$365 per hour; over 500 MT - \$730.

NOTE for Line Item 559-62: Hours for receipt of orders 24 hours; hours for delivery 0900-1730 Mon-Fri. Written orders must be received by the Contractor within 24 hours of the verbal being issued. **SPO600-97-D contracts effective through 30 June 1999**

taken as full product cannot be returned to the refinery at this location. No deliveries on weekends and holidays except for emergencies. Exxon allows six hours of additional free time; thereafter, a flat detention rate applies as follows: up to 300MT - \$545 per day; 301 - 600 MT -\$970 per day; 601 - 1,000 MT - \$1,200 per day; 1,001 - 1,500 MT \$1,515 per day; over 1,500 MT \$2,000 per day. In addition, all deliveries outside normal delivery hours are considered overtime. Overtime charges are flat fees as follows: up to 250 MT - \$490; 251-500 MT \$365 per hour; over 500 MT - \$730.

NOTE for Line Item 559-63: A maximum sulfur content of 3.5% for IFO 380 may be required for certain vessels. When such fuel is required, the Ordering Office shall ask the contractor, at the time of order placement, if IFO 380 with a maximum sulfur content of 3.5% sulfur is available. The contractor shall advise the Ordering Office within 24 hours if such fuel is available for delivery. The contractor shall endeavor to provide IFO 380 with a maximum sulfur content of 3.5% whenever ordered, but shall not be obliged to deliver this product if not available. In the event IFO 380 with a maximum sulfur content of 3.5% is not available, the Ordering Office shall then have the right to cancel the order and obtain supplies from other sources with no cost to either party. When IFO 380 does not meet the 3.5% sulfur limitation required by the Government, it shall be so annotated by the Ordering Office on the ordering document. Hours for receipt of orders 24 hours; hours for delivery 0900-1730 Mon-Fri. Written orders must be received by the Contractor within 24 hours of the verbal being issued. Under no circumstances should vessels depart before providing a written order to the contractor. Quantities ordered must be taken, as full product cannot be returned to the refinery at this location. No deliveries on weekends and holidays except for emergencies. Exxon allows six hours of additional free time; thereafter, a flat detention rate applies as follows: up to 300MT - \$545 per day; 301 - 600 MT -\$970 per day; 601 - 1,000 MT - \$1,200 per day; 1,001 - 1,500 MT \$1,515 per day; over 1,500 MT \$2,000 per day. In addition, all deliveries outside normal delivery hours are considered overtime. Overtime charges are flat fees as follows: up to 250 MT - \$490; 251- 500 MT \$365 per hour; over 500 MT - \$730.

NOTE for Line Item 561-611: Hours for receipt of orders 0800-1700 Mon - Fri. After hours numbers are 011-44-370-461-193 and 011-44-370-532-904.
